Summary

I have research experience in Plant Tissue Culture, Hydroponics, Mass Spectroscopy (GC-MS), Molecular Biology and Bioinformatics (plant metabolomics and molecular docking and dynamic simulations) and my skills include Scientific writing, Yoga therapy, training, Nutrition counselling, and mentorship.

My research focuses on

- 1) Analysing medicinal plants' phytochemical constituents and enhancing the important bioactive substances in vitro using elicitors after thorough identification by spectroscopic analysis.
- 2) Studying the therapeutic potential of medicinal plant extracts through In Silico analysis.
- 3) It also includes conserving plants (to be endangered) and cultivating them on a large scale for commercial purposes.

Research interests: Gene editing, Bioreactor technology, Drug discovery

My academic and professional career is marked by the strategic planning, execution, and publication of original research. I have a proven track record in supervising and mentoring students and junior researchers, nurturing their scientific curiosity and honing their analytical skills. I am driven by my commitment to fostering knowledge and contributing to their professional growth.

I have always advocated for a friendly and collaborative working environment as an integral part of various cross-disciplinary scientific research groups. My interdisciplinary research approach has allowed me to establish strong relationships with peers across different scientific disciplines.

Fluent in written and spoken English, I can convey complex scientific concepts in an accessible and engaging manner.

Experience

Indian Institute of Science (IISc)

Project Associate II

April 2026 - Present (6 months)

Bengaluru

Vikrama Simhapuri University (VSU), Nellore

Senior Project Fellow

September 2024 - March 2026 (1 year 7 months)

Sri Potti Sriramulu Nellore

Vikrama Simhapuri University College

Researcher Ph. D Student

October 2021 - March 2026 (4 years 6 months)

India

Education

Vikrama Simhapuri University College

Doctor of Philosophy - PhD, Biotechnology · (October 2021 - May 2026)

Sri Venkateswara University

Postgraduate Degree, Biotechnology- Gold medalist · (June 2018 - January 2021)

Rashtriya Sanskrit Vidyapeetha

P.G. Diploma , Yoga Teacher Training/Yoga Therapy · (August 2018 - March 2019)

Sri Venkateswara University

Bachelor of Applied Science - BASc, Biotechnology · (2015 - 2018)

Viswa sai

Intermediate , Biology, physics, chemistry · (June 2011 - March 2013)
